

Sticking with Safety

*Customers rely on Merit Medical when
needlestick prevention matters most.*

The unique design of the SecureLoc™ Introducer Needle provides an easy to activate, low profile safety mechanism, which shields the bevel of the needle after use.

ORDERING INFORMATION

FEATURES & BENEFITS

LOW PROFILE SAFETY MECHANISM

Less likely to change or affect clinical technique.

COLOR CODED SAFETY MECHANISM

For fast identification of needle gauge size.

ERGONOMIC HUB DESIGN

Facilitates grip, stability, and needle control during use.

TRANSPARENT POLYCARBONATE HUB

For instant bleed-back confirmation.

SHARP CANNULA BEVEL

Provides quick access to the vasculature and minimizes trauma to surrounding tissue.
